"of all the disciplines that we learn in school, stem is an area where you can always have a world where there is more than one right answer."

in 1982, the average ceo tenure was 9.7 years; by 2002, it had dropped to 6.8 years

i did some really bad things and i alienated my family, said dottie

i’ve been in this position myself and it is difficult but i’m more than confident they can stay in the division and then consolidate and improve next season

form of an object pointer or a custom condition) comes from the object itself (as opposed to one of the
